

Samuel Olanrewaju

I am a hardworking and goal-driven student passionate about Information Technology and art. This passion made me take courses on web development because I was inquisitive about how websites worked. After finishing the web development course by "The London app brewery", I was able to attain a strong knowledge of full stack web development. Now I am looking for a company to start my career in this field. I aim to learn as much as I can about web development and at the same time investigate other fields in IT like App development for various platforms and the integration of Artificial intelligence in our everyday lives and find ways to merge my love for art with my love for IT.

EDUCATION

- **HIGH SCHOOL DIPLOMA, PRIMEWILL CITY COLLEGE. NIGERIA**
SEPT 2014 – JUL2020
 - Mathematics, English, Physics, Chemistry, Biology, Economics, Geography, ICT, Civic Education. Here I attained the role of assistant head Prefect. As the assistant head prefect, it was my job to lead the other prefects in their duties. I also represented the school at events and made public speeches. I served as a role model for students and shared students' ideas to the school's leadership.
- **BTECH L3 COMPUTING: INFORMATION TECHNOLOGY.**
SEPT 2023 – Present
 - Website development, IT Systems, Database Management, Mobile Apps Development(thunkable), social media in business, Programming(python) and CPD. Aside my course work, I was able to learn public speaking, project documentation and presentation skills
